

Dear Madam,

Dear Sir,

On Thursday October 13, 2022 **AOAC Lowlands** will organize its 12th symposium entitled '**Sustainable protein substitutes under the microscope**'. Proteins are crucial in our diet and the current protein production and consumption have been pressurized in order to create more diversity and become more sustainable. During this symposium, various topics related to sustainable protein substitutes will be discussed. Which protein sources are currently available and which alternative protein sources are ready to conquer our supermarkets? Is the consumer ready and are these proteins safe? How are the local companies dealing with these changes and what are they encountering? Can livestock farming and the animal feed chain anticipate the social challenges and ensure greater sustainability? What challenges are there in terms of food safety and what is the impact on our economy and environment?

In addition to distinguished speakers from Belgium and the Netherlands, who will elucidate different perspectives on the use of protein substitutes, several speakers from the food and feed industry will share their experiences with us. The symposium is open to anyone involved in the research, development, production, use and control of protein substitutes in the agri-food sector. With this symposium we want to reach a broad audience in the Benelux, ranging from producers to quality managers, researchers, consultants and consumers. You can find the program on our website (<https://www.aoaclowlands.nl/symposia.html>).

The symposium will take place in Breda and it would be a great opportunity for you and your company to present your products and network with participants. The table below gives you an overview of the various **sponsorship opportunities**. You can indicate your choice on the 'sponsor registration form', after which you can send this form to our contact persons at the bottom of this letter. If you would like to have more details about this event, you can always visit our website or contact the board members.

We appreciate your support and looking forward to a possible collaboration!

Sincerely,

The organizing committee

Overview sponsorship opportunities*
